1 Timeline and mapping of the activities

Name of Course: Master of Data Science
Total Number of Hours of Activities: 288 Hours
Internship Period: 3 March 2025 – 23 May 2025
Internship Company: MyHomeworkRewards
Supervisor Name: Gabriel Aversano
Supervisor Contact: myhomeworkrewards@gmail.com

Table 1- Timeline and mapping of the activities

						Name, Contact and
Activity	Tasks done in this activity	Element/s of competency related to the tasks	Total time spent on this activity (hr)	Period of involvement	Respective episode in the report	Signature of the supervisor. If not applicable, reference to the evidence.

Activity 1: Dashboard Development & Data Familiarization (Week 1–6)	Understood database structure and ran SQL queries. Identified and cleaned null values. Evaluated existing dashboards. Designed and implemented basic dashboards using Power BI. Learned drag-and-drop dashboard techniques and cosmetic design. Attempted dashboard implementation using JavaScript/HTML/CSS.	SQL query writing Data cleaning Dashboard design. Visual communication. Basic understanding of web-based dashboard tools.	144 hr	3 March – 13 April 2025	Episodio 1	Gabriel Aversano myhomeworkrewards@gmail.com Signature: 
Activity 2: Stakeholder Dashboard Implementation & Finalization	Created stakeholder-specific dashboards (e.g., parents). Applied feedback and improved dashboard interactivity. Used Power BI visuals and filtering for individual student dashboards. Converted dashboards	Advanced Power BI use. HTML dashboard integration Stakeholder communication and adaptation Data presentation and documentation	144 hours	14 April – 23 May 2025	Episodio 2	Gabriel Aversano – myhomeworkrewards@gmail.com Signature: 

	into HTML format for browser-based viewing. Compiled final work and shared via Google Drive. Presented dashboards and documented full internship outcomes

2 Episodes

2.1 Episode 1

Related activity:

Tasks discussed in this episode	Elements of competency related to the task
Week 1 & 2: Database Familiarization and Dashboard Evaluation • Explored the database by running SQL queries. Attended an introductory meeting with the supervisor and received access to project files via Google Drive. Identified null values in the dataset and evaluated the existing dashboard for potential improvements. • Internship supervisor: Gabriel Aversano – myhomeworkrewards@gmail.com	• SQL querying • Data cleaning • Initial data analysis • Dashboard evaluation and critique

Week 3 & 4: Dashboard Creation and Feedback Implementation - Created bar and line graphs for the dashboard. Attempted to implement a dashboard using JavaScript but encountered technical difficulties. Shared updates with the supervisor and received feedback, which I incorporated into a revised dashboard. - Internship supervisor: Gabriel Aversano – myhomeworkrewards@gmail.com	- Data visualization design - Use of HTML/JavaScript (basic level) - Receiving and applying supervisor feedback

Reflection for Weeks 1 & 2: Database Familiarization and Dashboard Evaluation During these two weeks, I developed a strong understanding of the database structure and the importance of data quality. Running SQL queries helped me practice data exploration techniques. Identifying null values gave me insight into preparing clean datasets for analysis, and reviewing dashboards sharpened my ability to assess data presentation.

Reflection for Weeks 3 & 4: Dashboard Creation and Feedback Implementation

These weeks helped me apply data visualization skills in practice. I faced challenges while working with JavaScript, but the experience expanded my understanding of frontend development. Receiving feedback also taught me how iterative design enhances the clarity and usability of dashboards.

2.2 Episode 2

Tasks discussed in this episode	Elements of competency related to the task
---------------------------------	--

Week 5 & 6 Stakeholder-Specific Dashboard Design - Revised the dashboard based on supervisor feedback using Power BI. Started developing dashboards specifically for stakeholders. Learned how to use drag-and-drop features and applied cosmetic design elements to enhance presentation. - Internship supervisor: Gabriel Aversano – myhomeworkrewards@gmail.com	- Stakeholder-focused dashboard creation - Aesthetic and layout improvements - Intermediate Power BI skills
Week 7 & 8: Filtering and Tailoring Dashboards for Stakeholders - Created a single-student dashboard tailored for parent stakeholders. Learned to filter data for individual users and imported SQL data into Power BI. Applied further feedback from the supervisor. - Internship supervisor: Gabriel Aversano – myhomeworkrewards@gmail.com	? - Data filtering techniques - SQL file integration - Customized stakeholder views

Reflection for Weeks 5 & 6: Stakeholder-Specific Dashboard Design

This phase improved my confidence in using Power BI and designing user-friendly dashboards. I realized the importance of aligning dashboards with stakeholder expectations and learned how design elements contribute to clarity and impact.

Reflection for Weeks 7 & 8: Filtering and Tailoring Dashboards for Stakeholders

Working on stakeholder-specific dashboards improved my ability to deliver focused insights. I learned how to filter datasets for user-specific views and understood the value of tailored information presentation in decision-making.

Week 9 & Week 10 – Interactive Dashboard Enhancement and Review - Enhanced the interactivity of dashboards, refined visuals using Power BI tools, and incorporated supervisor feedback. Presented dashboards for review and made additional adjustments. - Internship supervisor: Gabriel Aversano – myhomeworkrewards@gmail.com Week 11 & Week 12 – Final Dashboard Deployment and Documentation - Implemented the final dashboard as an HTML file for web viewing. Compiled and submitted all internship documents and deliverables via Google Drive.	- Enhancing interactivity in Power BI - Visual storytelling - Presenting analytical work to stakeholders - HTML dashboard deployment - Final
Internship supervisor: Gabriel Aversano – myhomeworkrewards@gmail.com	documentation and reporting Project wrap-up and delivery

Reflection for Weeks 9 & 10: Interactive Dashboard Enhancement and Review

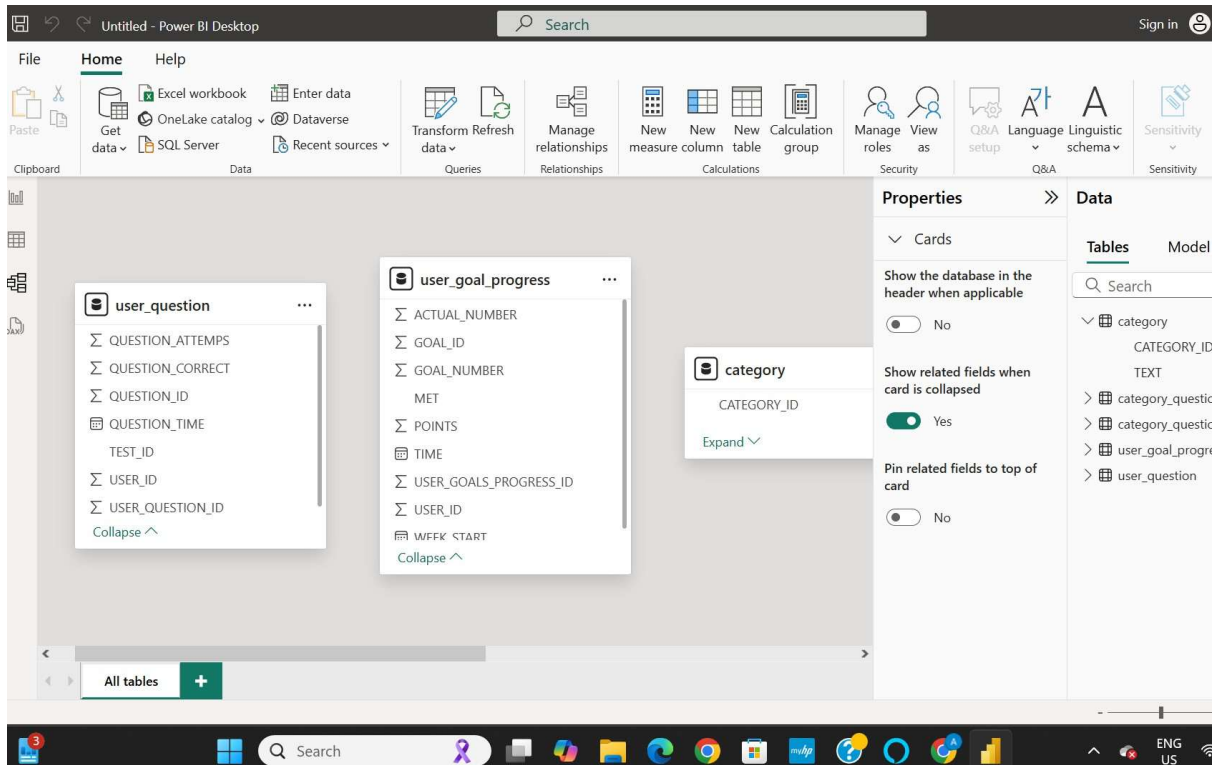

I learned how to make dashboards more engaging and responsive. These improvements helped me tell clearer data stories and increased my ability to adapt designs based on audience needs and feedback.

Reflections for Weeks 11 & 12: Final Dashboard Deployment and Documentation

Implemented the final dashboard as an HTML file for web viewing. Compiled and submitted all internship documents and deliverables via Google Drive.

23 May 2025

Gabriel Aversano

MyHomeWorkRewards

Dear Mr. Aversano,

I am writing to formally express my gratitude and to summarize my contributions during my internship as a Data Analyst at MyHomeWorkRewards. As a Master of Data Science student at Charles Darwin University, this internship has provided a vital opportunity to bridge the gap between academic learning and practical implementation.

During the placement from 3 March 2025 to 23 May 2025, I contributed to the design and enhancement of interactive dashboards that supported performance monitoring for your e-learning platform. My responsibilities included creating visualizations in Power BI and Tableau, developing dummy datasets for offline testing, writing SQL queries for data retrieval and transformation, and collaborating with the development team to integrate visual reports into HTML-based web environments.

The experience has significantly enhanced my technical and analytical skills, particularly in user-focused data design and performance metric visualization. It also strengthened my understanding of real-world IT workflow, stakeholder communication, and iterative product improvement.

Thank you again for the guidance and support throughout this internship. I am confident that the skills gained will be instrumental in my future career as a data professional.

Sincerely,
Anon Frank Christian

Resume

Anon Christian

Phone: 0422 822 191

Email: christiananon89@gmail.com

LinkedIn: Anon Christian

Address: 33 Sunset Drive, Coconut Grove, Darwin, NT

Career Objective

Enthusiastic Master of Data Science student at Charles Darwin University with hands-on experience in data analysis, dashboard design, and SQL database management.

Seeking to apply academic learning to real-world IT challenges and contribute meaningfully to innovative data-driven solutions.

Education

Master of Data Science

Charles Darwin University, NT

Expected Graduation: 30 June 2025

Bachelor of Commerce

S.P. University

Year Completed: 2022

Technical Skills

- Programming: Python, SQL
- Tools: Power BI, Tableau, Excel, Git
- Databases: SQL Workbench, MySQL
- Web: HTML, JavaScript (Chart.js basics)
- Soft Skills: Communication, Time Management, Teamwork

Work Placement Experience

Data Analyst Intern

MyHomeWorkRewards – Virtual Internship

3 March 2025 – 23 May 2025

Total Hours: 256

Supervisor: Gabriel Aversano

Key Responsibilities:

- Designed and improved data dashboards for an online e-learning platform.
- Utilized Power BI and Tableau to visualize user engagement and goal progress.

- Wrote and optimized SQL queries to retrieve and clean data.
- Collaborated with developers to embed dashboards in a web interface.
- Created dummy datasets to simulate real-time user data for offline testing.

Key Achievements:

- Developed dynamic dashboards to improve user experience and insights.
- Automated weekly data tracking and reporting for internal stakeholders.
- Improved design consistency and data accuracy across multiple charts.

Supervisor Name	Gabriel Aversano	Supervisor Email:	MyHomeworkRewards@gmail.com
Intern Name:	Anon Christian	Intern Email	Christiananon89@gmail.com
INTERN ANSWER: How many hours did you actively work this week?			20

INTERN ANSWER: What is the main project(s) that you worked on or completed this week

Data Cleaning and Preparation:

Firstly, I downloaded the database from google drive link. Secondly, I got used to with the data and lastly, I did run some queries to see how many tables, rows are there.

INTERN ANSWER: What new skills, information or understanding have you taken away from this week?

How to import the data in the workbench sql. I also learned how we can get to know the data better and etc.

Directions to Complete:

- Please complete the three above boxes to the fullest honestly reflecting on the week and your work.
- Once completed please save and send to your supervisor, your supervisor will then need to complete and sign sending it back to.
- Once you have a finalized timesheet, please send the approved version to your Program Experience Manager.

SUPERVISOR ANSWER: What Projects should the intern focus on next week?

Dashboard Creation:

Anon can provide 2-3 recommended changes to the dashboard, get 1 approved, and implement the changes (SQL).

SUPERVISOR ANSWER: What is one thing the intern can do next week to improve?

Anon can provide frequent updates in Wrike

A

SUPERVISOR CONFIRMATION: I approve the above content is true and reflective of the Virtual Internship progress.

Signature:

A handwritten signature in black ink, appearing to be "J. A.", written over a horizontal line.

Date: March 09, 2025

INTERN ANSWER: How many hours did you actively work this week?			20

INTERN ANSWER: What is the main project(s) that you worked on or completed this week
Data Visualization: I got used to with the database, checked null values in the dataset and also attended meeting with company. I worked on finding improvements for the dashboard as discussed with host company.

INTERN ANSWER: What new skills, information or understanding have you taken away from this week?
well I got to learn how to run queries to find null values, how to examine dashboard to find some improvements and also got to learn about visualization.

- Directions to Complete:**
1. Please complete the three above boxes to the fullest honestly reflecting on the week and your work.
 2. Once completed please save and send to your supervisor, your supervisor will then need to complete and sign sending it back to.
 3. Once you have a finalized timesheet, please send the approved version to your Program Experience Manager.

SUPERVISOR ANSWER: What Projects should the intern focus on next week?
Dashboard Creation: Incorporate changes to dashboard

SUPERVISOR ANSWER: What is one thing the intern can do next week to improve?
Anon can provide frequent updates in Wrike

INTERN ANSWER: How many hours did you actively work this week?			20

INTERN ANSWER: What is the main project(s) that you worked on or completed this week

Dashboard Creation:

I made some improvements on dashboard then shared it with my supervisor. Moreover, I was advised to work on it through javascript/css/html and I selected javascript and started working on it but did not get it through. So, I emailed about this to my supervisor and was assisted to wait till next meeting and he guided me forward. Lastly, I created Bar graph and Line charts for dashboard improvements and I shared it with my supervisor in the weekly meeting.

INTERN ANSWER: What new skills, information or understanding have you taken away from this week?

I learned how to create a dashboard. And also got bit of understanding on javascript.

Directions to Complete:

1. Please complete the three above boxes to the fullest honestly reflecting on the week and your work.
2. Once completed please save and send to your supervisor, your supervisor will then need to complete and sign sending it back to.
3. Once you have a finalized timesheet, please send the approved version to your Program Experience Manager.

SUPERVISOR ANSWER: What Projects should the intern focus on next week?

Dashboard Creation:

Complete minor improvements to dashboard

SUPERVISOR ANSWER: What is one thing the intern can do next week to improve?

Anon can provide frequent updates in Wrike and implement the improvements on the dashboard creation.

INTERN ANSWER: How many hours did you actively work this week?			20

INTERN ANSWER: What is the main project(s) that you worked on or completed this week

Dashboard Creation:

I received the feedback from the supervisor then started working on the feedback and created a dashboard. Lastly, I shared the dashboard to my supervisor and was waiting for the feedback.

INTERN ANSWER: What new skills, information or understanding have you taken away from this week?

This week I learned how to create a dashboard and implement the changes on the dashboard, which I received from my supervisor.

Directions to Complete:

1. Please complete the three above boxes to the fullest honestly reflecting on the week and your work.
2. Once completed please save and send to your supervisor, your supervisor will then need to complete and sign sending it back to.
3. Once you have a finalized timesheet, please send the approved version to your Program Experience Manager.

SUPERVISOR ANSWER: What Projects should the intern focus on next week?

Dashboard Creation:

In our weekly meeting we will discuss more on the changes which we can make on the dashboard to produce it more interactively.

SUPERVISOR ANSWER: What is one thing the intern can do next week to improve?

Anon can provide some screenshot of the progress made in wrike.

INTERN ANSWER: How many hours did you actively work this week?			20

INTERN ANSWER: What is the main project(s) that you worked on or completed this week

In week 5 I learned how to create a dashboard with the feedback received from my supervisor.

INTERN ANSWER: What new skills, information or understanding have you taken away from this week?

I learned how to create dashboard by drag and drop method also had an opportunity to learn about cosmetic work to do in dashboard creation.

Directions to Complete:

1. Please complete the three above boxes to the fullest honestly reflecting on the week and your work.
2. Once completed please save and send to your supervisor, your supervisor will then need to complete and sign sending it back to.
3. Once you have a finalized timesheet, please send the approved version to your Program Experience Manager.

SUPERVISOR ANSWER: What Projects should the intern focus on next week?

Data Visualization:

We will work on improving the visualizations on the website

SUPERVISOR ANSWER: What is one thing the intern can do next week to improve?

Set up a one-on-one w Gabriel for a midterm review

INTERN ANSWER: How many hours did you actively work this week?			20

INTERN ANSWER: What is the main project(s) that you worked on or completed this week

Dashboard Creation:

In this week I had meeting with my supervisor and we have moved to create dashboard for stakeholders. So, I have started working on that.

INTERN ANSWER: What new skills, information or understanding have you taken away from this week?

I've learned how to create a database as well as how to create dashboards for different stakeholder.

Directions to Complete:

1. Please complete the three above boxes to the fullest honestly reflecting on the week and your work.
2. Once completed please save and send to your supervisor, your supervisor will then need to complete and sign sending it back to.
3. Once you have a finalized timesheet, please send the approved version to your Program Experience Manager.

SUPERVISOR ANSWER: What Projects should the intern focus on next week?

Dashboard Creation:

Planning out your dashboard

Anon can provide frequent updates in Wrike
